**Each participant will get
Free book (636 pages) by
Institute of Packaging-USA
(price @ USD 310)**

Greetings!

The Indonesian Packaging Federation / IPF along with the World Packaging Organization / WPO, Asian Packaging Federation / APF, Australian Institute of Packaging / AIP and Institute of Packaging Professionals / IoPP of USA invites you to join an intensive training course in Global Packaging Technology being held in Yogyakarta, Indonesia from 7-10 February, 2017 on three days class discussions and one day plant tours to nutritional products producer and chocolate factory.

This training course designed to strengthen participants in packaging capabilities, provides a level of insight and understanding of the packaging industry that adds real and measurable value to careers and businesses.

There will be a lot of opportunities and challenges for packaging industry with the implementation of AEC in 2016. This course will give a comprehensive picture on packaging technology and innovation as well as important packaging strategies for the global market demand.

The in-depth information, case studies and examples are based on real experience of expertss in the packaging field.

This course would have seasoned international consultants from Australia - Mr. Pierre Pienaar, Director of Australian Institute of Packaging and others Indonesian trainers.

WHO SHOULD ATTEND ?

This course is valuable to all packaging related organizations such as end users or brand owners of products, packaging suppliers, research institutions, or modern trade companies whose need to capture competitive advantages. To register today, please fill the form and return to us and for more information, please contact:
