The food and beverage market accounts for the biggest share of the Indonesian packaging market. There are life-style changes taking place in the urban society that are altering food habits. Indonesian consumers are increasingly purchasing convenience food. Working urban women have limited time to shop and cook the traditional way and this leads to demand for ready-to-eat retortable food and ready-to-drink aseptic dairy with convenience packaging.

In this future trends we need innovative solutions to guarantee that processing run safe and smoothly, creating authentic and an overlooked quality, basically to understand the whole platform of food and drink preservation with the right choice of convenience barrier packaging technology in rigid as well in flexible plastic that can play a key role in contributing to the success of its new products.

Invest this one day informative seminar in your future success. With its unique crossover approach, this seminar covers a whole host of aspects and crosses technological boundaries. It brings together all aspects of production, packaging, storage and distribution under one topic.

Who should attend?

This seminar is dedicated for Packaging Converters and Developers, Brand Owners and Its Packaging Specialist, especially who is interested in Ready-to-Eat Foods and Ready-to-Drink Beverages (Retort Food, Functional Food & Drink, Aseptic Beverages and Dairy, Traditional and Sea Food etc.)
