

a three-day Intensive Training Course in:

Packaging Technology

Materials, Applications, Trends and Development opportunities & challenges of AEC towards 2015

5 - 7 March 2014 : Class Discussions

Swiss-Belhotel Seminyak, Bali - Indonesia

8 March 2014 : Visit to Food, Hotel & Tourism Expo in BDCC, Nusa Dua, Bali

Greetings!

The Indonesian Packaging Federation / IPF along with the World Packaging Organization / WPO and Australian Institute of Packaging / AIP invites you to join a three-day intensive training course in Packaging Technology being held in Swiss Belhotel Seminyak, Bali, Indonesia from 5-7 March, 2014 for class discussions and 8 March 2014 visit to Food, Hotel & Tourism Expo in BDCC, Nusa Dua, Bali.

This training course designed to strengthen participants in packaging capabilities, provides a level of insight and understanding of the packaging industry that adds real and measurable value to careers and businesses. Packaging is a fundamental part of modern business, and the course provides you with the detailed 'overview' of packaging processes, adds value to your business and helps you to prove your worth. Through this course we will be promoting the very latest in packaging technology and practice to the many practitioners in the packaging community globally.

There will be a lot of opportunities and challenges for packaging industry with the implementation of AEC in 2015. This course will give a comprehensive picture on packaging technology and innovation as well as important packaging strategies for the near future AEC market demand. The in-depth information, case studies and examples are based on real experiences of experts in the packaging field.

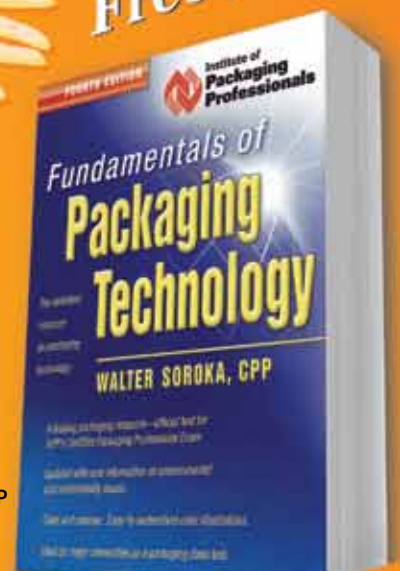

This course is valuable to all packaging related organizations such as end users or brand owners of products, packaging suppliers, research institutions, or modern trade companies whose need to capture competitive advantages towards the coming up AEC market opportunities.

This course would have seasoned international consultants from Australia - Mr. Pierre Pienaar / Australian Institute of Packaging; Indonesia - Ms. Sri Julianti / Independent Packaging Consultant, Ms Ariana Susanti- President Asian Packaging Federation / APF and Indonesian Packaging Federation / IPF, Host.

To register today, please email to: seminar@packindo.org or contact: Irma / Mualif at Tel/Fax. +62 (021) 7441775. We look forward to welcoming you to Bali for an unforgettable packaging development experience.

Certificate in Packaging

Free Book

Supported by : World Packaging Organization / WPO
Organised by : Indonesian Packaging Federation / IPF
In Partnership with: Australian Institute of Packaging / AIP

World Packaging Organisation

The World Packaging Organisation is a non-profit, non governmental, international federation of national packaging institutes and associations, regional packaging federations and other interested parties including corporations and trade associations. Founded on September 6, 1968 in Tokyo by visionary leaders from the global packaging community, the purpose of the organization is to:

- Encourage the development of packaging technology, science, access and engineering.
- Contribute to the development of international trade.
- Stimulate education and training in packaging.

Primary activities of the organization today, are to promote education through meetings, special activities and publications, to sponsor an international packaging design awards program, and to facilitate contact and exchange among the various national institutes of packaging.

WPO Education Policy:

- Continued support for education needs of its members. Assisting in preparing country education programs.
- Assisting in preparing country education programs.
- Publishing world trends related to packaging market and technology.
- Sharing the information by placing members' education activities on the website.
- Working more closely with international Trade Center and other identified partners.
- Encouraging innovation and complementing the education process through the WorldStar Award.

Indonesian Packaging Federation

Indonesian Packaging Federation (IPF) is a business association, non-profit, non-governmental organization of packaging industry in Indonesia, founded in 13 August, 1977. IPF is a member of: Asian Packaging Federation (APF) and World Packaging Organization (WPO)

IPF provide its members to share information, networking, business matching, training & workshop, factory visit, seminar & conference, technology development, industry progress, environmental aspects, law and regulations, etc. The mission is to enhance packaging quality & technology development as well as to encourage research and development in the packaging innovations.

IPF Programs & Activities:

- Education / Training (National & International)
- Intensive Workshop, on special topics of interest
- Seminar & Conference (Packaging Sustainability)
- International Business Meeting / Matching
- Packaging Design Contest : PackindoStar Awards (recognition for excellence in packaging)
- Research & Development on New Technology and Market Trend
- Visit and join promotion in the Packaging Expo worldwide
- Issues & Legislation: standardization and environmental friendly
- Market Study on Packaging
- Consultation Services

The Australian Institute of Packaging / AIP

The Australian Institute of Packaging is the only professional body that caters for individual membership for all people involved in the packaging industry in Australia.

The primary function of the Institute is to provide ongoing education and technical training for members and guests. Formal education opportunities are provided via the "on line" Certificate in Packaging Technology and a Diploma in Packaging Technology both of which carry IoP (UK) accreditation. The meetings, plant tours and conferences arranged by state branches and the national office offer the opportunity for members to access a network of packaging professionals who are able to discuss packaging innovations and future trends. These functions enhance industry networking tenfold, which I strongly encourage.

The AIP offers a range of education opportunities to individuals and corporate seeking to expand their knowledge and commercial opportunities across the breadth of the packaging industry. The formal courses leading to an accredited qualification are administered by the PIABC in the UK and are the benchmark for training worldwide.

AIP Program Objectives:

- This unique interactive program is a part of the Packaging Innovation Incubator program whose charter is cross fertilization of ideas for the benefit of packaging industry, at large.
- This pioneering initiative in Indonesia and guided by the educational mission of WPO is desired to meet the objectives as below:
 - Deliberate new trends in packaging materials, techniques and technologies.
 - Get acquainted wide new trends along with sectoral specifics (food, pharmaceutical, consumer products, industrial products etc).
 - To have an exposure towards product differentiation with packaging and marketing trends.
 - Create country platform to disseminate information on the latest packaging advances.

a three-day Intensive Training Course in **Packaging Technology**
Materials, Applications, Trends & Development

Presenter:
Pierre Pienaar MSc FAIP

Pierre has a Master of Science Degree (Packaging Engineering/Technology) from Brunel University, UK. Pierre has a Master of Manufacturing and Production Degree from University of Hertfordshire, UK.

He has been National President of the South African Institute of Packaging, a director of the Packaging Council of Southern Africa and a representative on the board of the World Packaging Organisation.

He has lectured in the technology and science of packaging at various universities and institutions for the past 23 years and is currently a tutor for the correspondence course being offered through the Australian Institute of Packaging, namely the Diploma in Packaging IoP UK.

Presenter:
Sri Julianti

Sri Julianti graduated from Institute Technology of 10 November Surabaya (ITS) in Chemical Engineering. She used to work at Unilever as R&D Packaging Development Manager for Home Personal Care & Foods and has experienced for more than 29 years in Unilever Indonesia in Packaging and Supply Management. In 1998-2000 she was Project Manager for Home Personal Care, responsible for Laundry project in Unilever New Zealand.

She has participated in various International Packaging Course in UK and Polymer Technology Course at Michigan School of Packaging, USA; and a lot more. Currently, she is an independent packaging consultant and trainer. She is also the advisory board of Regional Indonesian Cosmetic Association.

Programs Outline

This training course gives an overview covering the following topics :

Day 1: Wednesday, 5th March, 2014 (start at 10.30 a.m.)
